Profile Summary

Skilled in delivering impactful training sessions, strong expertise in Java, Data Structures & Algorithms and contributing to AI model enhancement through prompt engineering. Committed to continuous learning, detail orientation, and technical excellence.

Skills

- **Programming:** Java, Data Structures & Algorithms, HTML5/CSS
- **Tools:** Git, Version Control, [Google Cloud Platform \(Hands-on\)](#)
- **Area of Focus:** Aptitude, Subject Matter Expert, Flexibility and Availability, Attention to Detail, Continuous Learning and Adaptability

Experience

Corporate Trainer (Training & Placement) **Sanjivani Group of Institute** *Full Time* **12/2025 – Current**

- Trainer in Training & Placement Department, responsible for delivering impactful technical training in Data Structures and Algorithms using Java to undergraduate and postgraduate engineering students.
- Designed and conducted placement-oriented sessions, coding practice, and assessments to enhance students' problem-solving skills and industry readiness.

Senior Technical Trainer **Six Phrase by Veranda** *Full Time* **12/2023 – 12/2025**

- Conducted technical training sessions in **20+ colleges and universities**, enhancing students' technical proficiency in Java Programming Language and Data Structures & Algorithms.
- Tailored curriculum delivery to match diverse academic backgrounds, improving technical confidence among participants.

AI Trainer – Prompt Engineer **Outlier** *Part Time - Freelance* **01/2025 – 11/2025**

- Assisting in AI model training by evaluating and refining responses for accuracy and quality.
- Providing detailed feedback to improve AI reasoning, problem-solving, and language understanding in several projects based on **RLHF, SOTA Model, SFT and Complex Prompt Writing** to identify weak section of the model.

Full Stack Developer **Kakadu Traders - India** *Contract - Virtual* **07/2023 - 11/2023**

- Led the design and development of a **multi-vendor e-commerce application** using, HTML, CSS, and various libraries.
- Created a robust **Content Management Software platform** to manage thousands of products, user details, and workflows for first- and third-party shop owners.

Project

AI-Powered Placement & Training Platform

- Developed a scalable AI-powered platform to streamline placement, training, and academic workflows across multiple institutes.
- **Features:** Role-Based Access Control – Institute Admin, Staff, Clerk; Institutes, Academic Groups, Talent Pools, Bulk Upload
- **Workflows:** LMS, AI-Assisted Mock Interviews, Coding Challenges & Gamification, Results & Certification, Audit & Monitoring
- **Impact:** Centralized end-to-end placement workflows, Automated AI-generated interview question drafting, Enhanced real-time operational visibility

Education

Bachelor of Technology **SRM University** *Chennai, Bharat* **2020 - 2024**

- Computer Engineering **CGPA: 8.42**

Intermediate - BSEB **B. N. Inter College** *Rohtas, Bihar* **2018 - 2020**

- Physics, Chemistry, Mathematics

Matriculation - CBSE **Foundation School** *Buxar, Bihar* **2017 - 2018**

Certifications

Cloud Data Management (*Oracle*) Blockchain (*NPTEL*) Web Development (*Udemy*)
