File No. 28-299-2010-NBA

Date: November 19, 2024

To,

The Director,
Sanjivani Rural Educational Society's Sanjivani College of Engineering,
Kopargaon Sanjivaani Factory,
Sahajanand Nagar, Singnapur,
Kopargaon, Maharashtra- 423603.

Subject: Accreditation status of programs applied by Sanjivani Rural Educational Society's Sanjivani College of Engineering, Kopargaon Sanjivaani Factory, Sahajanand Nagar, Singnapur, Kopargaon, Maharashtra- 423603.

Sir,

This has reference to your application I.D. No. 8806-28/12/2023 seeking accreditation by National Board of Accreditation to the UG Engineering programs applied by Sanjivani Rural Educational Society's Sanjivani College of Engineering, Kopargaon Sanjivaani Factory, Sahajanand Nagar, Singnapur, Kopargaon, Maharashtra- 423603.

2. An Expert Team conducted onsite evaluation of the programs from 06th to 08th September, 2024. The report submitted by the Expert Team was considered by the concerned Committees constituted for the purpose in NBA. The Competent Authority in NBA has approved the following accreditation status to the programs as given in the table below:

Sl. No.	Name of the Program(s) (UG)	Basis of Evaluation	Accreditation Status	Period of validity	Remarks
(1)	(2)	(3)	(4)	(5)	(6)
1.	Computer Engineering	Tier-I January 2016 Document	Accredited	Academic Years 2024-2025 to 2026-2027 i.e. upto 30-06-2027	Accreditation status granted is valid for the period indicated in Col.5 or till the program has the approval of the Competent Authority, whichever is earlier
2.	Electrical Engineering		Accredited		

3. It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accredited degree.

4. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to Sanjivani Rural Educational Society's Sanjivani College of Engineering, Kopargaon Sanjivaani Factory, Sahajanand Nagar, Singnapur, Kopargaon, Maharashtra- 423603 as a whole. As such the Institution should nowhere along with its name including on its letter head etc. write that it is accredited by NBA because it is program accreditation and not Institution accreditation. If such an instance comes to NBA's notice, this will be viewed seriously. Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.

Departmental Achievements 2025-2026						

- 49 Students have been placed in Core Companies.
- 10 Students have been participated in paper presentations in various colleges.
- 01 students have gone to pursue higher studies
- The experts from the industries are invited for guest lectures, workshops and hands on training programs. These programs facilitate the students to enhance their skill sets and to update upon the latest technologies which make them confidently participate in co-curricular activities such as paper presentation, project contest, symposium, conference and many such activities.

The training given based on the industry input helps the students in carrying out the final year projects and also helps them in getting placed. The results in the examinations have been substantially improved due to these initiatives

Innovative Reforms

Short Term Courses (STC): Besides regular teaching learning, faculty members are involved in conducting various short term courses on various cutting edge technologies for the students.

Capsule Courses (CC): Understanding the needs of Industry requirements, every Department has designed capsule courses for the students. Idea is to develop domain expertise of students in various technical fields. For example, under train hire program offered by Xento systems, Pune, Department of Computer Engineering has designed a capsule course on “Web Programming using PHP and HTML” as per the requirement given by Xento. So far, more than 15 capsule courses are designed and conducted by various Departments.

Content beyond Syllabus (CBS): To bridge the knowledge and curriculum gap between Industry and academia, every faculty member delivers at least two lecture sessions as a part of regular teaching which is beyond the scope of syllabus. Considering latest development and technology up gradation related to the area and scope of the subject, faculty members identifies the gap and highlights these upgrades in CBS sessions.

Project Based Learning (PBL): Under this innovative reform, problems related to society needs are identified and being developed as Mini Projects from students. Understanding scope, need, requirement and objectives are explored where students could able to design and develop prototype model of the project. Concept of Project Management and development process from prototype model to a product is well explored by faculty under PBL. This helps in developing hands on technical skills among students.

Online Courses (OC): Faculty members are encouraged to complete online courses based on various technologies as per their expertise offered by NPTEL, ALLISON etc. These courses are sponsored by Institute, which helps in upgrading the knowledge among the faculty. Faculty members of different Departments complete more than 150 such courses.

FDPs and STTP Training: Faculty members are also encouraged and sponsored by the Institute to attend FDPs and STTPs based on various technologies and soft skills to upgrade their skill sets, which helps in guiding students in better way for their overall developments. Every faculty member attends at least one FDP/STTP in an academic year.

Elite Mentorships (EM): Under Mentorship scheme, every faculty member look after the overall development of about 20 students each right from his/her admission till passed out for a span of 4 years. Regular sessions for the soft-skill developments of students are conducted. Besides this, in every department under EM, senior faculties including Heads identifies around 40 to 50 bright students for special guidance toward their employability skill developments which can directly help them in placements. These mentees are called as Elite Mentees.

Industry Institution Linkages (IIL): To keep pace of recent upgrades in different technologies across the different streams, every Department has established IIL by signing different MOUs. This helps to remove the Industry- Institution gaps and facilitates the knowledge up gradations among the faculty and students by means of Industry visits and trainings, student internships, sponsored projects, expert lectures and seminars, and helpful for student placements. Further, for industry connects, Institute has started SAP training centre and RED HAT Academy centre for students. Department of E&TC has set up E-Yantra Lab, Knowledge Centre of Spoken Tutorial in association with IIT Bombay and Centre of Excellence in association with Texas Instruments.

Under the flagship of Sanjivani, Institute has started three different activities to connect the Industry and the senior Alumni: Sanjivani Thought Leaders (STL), Sanjivani i-Connect (SiC) and My Story Board (MSB).

Research & Development (R&D): Faculty members upgrade their knowledge through various R&D activities, which includes paper publications in reputed journals, preparing research proposals to different funding schemes like AICTE, DST, BCUD etc., development of industry-based projects along with students, and IPR Patents. Few faculty members are also involved in In-house software and product developments along with consultancy work.

Student Forums: Besides the various professional body and student association chapters, every Department has established few innovative clubs for the students. The main objective behind these forums is to motivate and guide them on latest technologies and practice hands on to develop small applications/systems giving flavour of product developments. Like Department of Mechanical Engineering has started IoT Club, Computer has started Research Innovation Development (RID) and Google Developers Student Club (DSC) and Civil Department has started Dr. APJ Kalam Research Forum.

Problem Solving through Tutorials: Problem base learning is explored by means of tutorials where design based and logical questions, which stimulate the thinking ability of students, are included. Students asked to bring standard Text and reference books and solve these tutorials. This helps in developing conceptual and self-understanding which also helps in developing writing skills.

ICT Based Learning (ICTBL): As a part of ICT based teaching pedagogy, Faculty members have started conducting few courses and online tests on MOODLE for students. Video lectures available on NPTEL are used for imparting knowledge base to the students along with different presentations. This helps in developing active learning interests among the students.

Co-curricular and Extra-curricular Activities

The Institute organizes various co-curricular and extra curricular activities, which ultimately help the students to showcase their unbleached talent. For overall development of the students, they are motivated and guided to participate in various events. For smooth conduction, the events are aligned to the Institute and Department Academic Calender. Various technical events are organized under student's chapter of professional bodies and various department organizations. Students are provided with a platform to showcase their creativity through Institute magazine under the banner "SANJIVANI". The Institute Magazine Sanjivani won first prize in Ahmednagar Zone under SPPU, Pune successively for more than three years. They are also encouraged to be a member of various professional and administrative bodies.

Institute provides adequate sports facilities to the students for different activities. Student teams participate in different sports like cricket, football, volleyball, badminton, chess, fencing, hockey, athletics, softball, baseball and kabaddi at district level, university level and all India level.

Every year various social activities are organized under NSS Cell, which inculcate social as well ethical responsibility among the students. Social awareness Camps are timely arranged in the adopted villages by the Institute.

Feedback system is adopted in the Institute for quality improvement in academics and curriculum development. Feedback is taken from different stakeholders such as students, alumni, parents, industry experts etc. This also helps in bridging the gap between the industry and the academia. Institute ensures a strong relationship with alumni, former faculty, industry experts and renowned personalities by arranging their sessions for students throughout the year. Alumni share their success stories and motivate the students under the banner of My Story Board. Similarly, for industry experts there is another platform named as Sanjivani Thought Leaders. Under this banner industry expert reveals the requirements of industry for present and future and inspire them to become competent enough to face the future challenges. Youth is a key for socio-economic development of the nation. They are encouraged to be member of different academic and administrative bodies. For technical enhancement every year, Institute organizes project exhibition, conference under the banner "Sanjivan Techfest". Students are also encouraged and motivated to participate in technical and nontechnical competition in the Institute and outside the Institute by providing financial assistance.

Soft Skill Development Facilities

The T&P Cell arranges various training programmes at regular intervals for making the students aware about the expectations of the corporates during recruitment process. Such programmes include training on soft skills, interview techniques, reasoning and programming skills etc. Few such programmes organized are:-

- Barclays GTT Training
- Transform Life programme
- Cocube Practice Test
- Scout Training
- Gryphon Training
- Focus Academy for Career Enhancement (FACE) Training
- Profound Training on C⁺⁺

Academic calendar is prepared by the institute and implemented by all Departments.

Industry Institution Linkages (IIL): To keep pace of recent upgrades in different technologies across the different streams, every Department has established IIL by signing different MOUs. This helps to remove the Industry- Institution gaps and facilitates the knowledge up gradations among the faculty and students by means of Industry visits and trainings, student internships, sponsored projects, expert lectures and seminars, and helpful for student placements. Further for industry connects, Institute has started SAP training centre and RED HAT Academy centre for students. Department of E&TC has set up E-Yantra Lab, Knowledge Centre of Spoken Tutorial in association with IIT Bombay and Centre of Excellence in association with Texas Instruments.

Under the flagship of Sanjivani, Institute has started three different activities to connect the Industry and the senior Alumni: Sanjivani Thought Leaders (STL), Sanjivani i-Connect (SiC) and My Story Board (MSB).

10.20 Best Practices adopted

- 1) Institute involves external research guides from other institutes to interact with faculty members and students.
- 2) Eminent academicians, scientists and industry people are invited as resource persons for various activities and to interact with faculty members and students. Institute has initiated three best practices for inviting eminent personalities.
 - Sanjivani Thought Leaders
 - Sanjivani i-Connect
 - My Story Board
- 3) Institute has conducted faculty placement drive in IIT Bombay twice to recruit research oriented faculty members.
- 4) Institute organizing various workshops, conferences and FDP to attract researchers.
- 5) Institute grants study leave to faculty members for pursuing higher qualifications.
- 6) Institute provides duty leave to faculty members for participating and presenting papers at national and international seminars, conferences and workshops.
- 7) Provision of incentive to faculty members and students for publication in reputed journal and filing patents.
- 8) Institute organizes socio-technical events in which student community is invited to present their research.

- 9) Students are motivated and guided to undertake research projects of real life problem.
- 10) Faculty members are motivated to undertake the research project from various funding agencies.

Research Facilities Provided By the Institute

The Institute provides the following research facilities to motivate the students, research scholars and faculty members within the campus.

- 1) The Institute is having well defined Research Promotion Policy.
- 2) International and national books, Magazines and Journals (Elsevier, Springer, ASCE, ASME, IEEE, etc.).
- 3) Research laboratories for all departments
- 4) Mathematical and analytical software
- 5) High speed internet facility with Wi-Fi (125 mbps)
- 6) Staff quarters if required
- 7) Research committee for improvement of research facilities
- 8) Institute provides separate R & D budget for research and development
- 9) Institute provides registration fee, conveyance, on-duty leave for attending research programs, workshops, seminars and conferences
- 10) Faculty members are encouraged to submit research projects to different funding agencies such as UGC, DSIR, AICTE, ISRO, DST, BCUD etc.
- 11) Institute also provides financial support for in-house development of projects (BAJA, ROBOCON, etc.)
